01 AT A GLANCE

Engagement Snapshot

Attribute	Detail
Client	MD Clearance
Industry	Dental and Healthcare SaaS
Prior vendor ETA	6 to 9 months
Sparfuchs delivery	30 days
Compliance	HIPAA §§164.308 and 164.312
QA result	Zero critical findings

02 THE CHALLENGE

Launch Blocked by Vendor Runway

MD Clearance, a services provider for the medical industry, needed a purpose-built pre-surgical medical clearance platform for sedation cases that was HIPAA-compliant and role-secured to launch their new product offering. Their existing vendor was still in mock-ups with a 6 to 9 month runway against a 30 day deadline to full workflow. They needed a different solution, fast.

03 HOW WE CONNECTED

Introduction and Fit

Sparfuchs and MD Clearance were introduced through mutual contacts. A candid conversation quickly revealed the fit: Sparfuchs had the methodology to deliver what MD Clearance needed, in a fraction of the time.

04 THE SPARFUCHS SOLUTION

Secure Rapid Development

Using its Secure Rapid Development with Intelligent QA methodology, Sparfuchs executed five parallel workstreams:

- Requirements frozen and baselined on Day 0, preventing scope creep.
- Interactive mock-ups validated in stakeholder workshops within 72 hours.
- Security embedded from the first sprint: threat modeling, MFA, encryption, RBAC, and least-privilege access.
- Sparfuchs-QA multi-agent adversarial suite executed after every build, catching logic bugs, permission leaks, and security edge cases in real time.
- Daily 15 to 30 minute customer reviews kept MD Clearance aligned throughout the engagement.

05 THE RESULTS

Outcomes at Launch

Time to production	Compliance at launch	QA audit result
30 days	HIPAA §§164.308 and 164.312	Passed, zero critical findings

06 CLIENT VOICE

In the Customer's Words

“Our product launch was dependent on having a new and fully operational platform. Our previous vendor was still in mock-ups with a lengthy development cycle ahead. Sparfuchs stepped in and delivered a production-ready and HIPAA-compliant, purpose-built solution for our workflow, and secure enough that we felt confident using it with real patient data from day one. All in less than a month. I didn’t think that kind of turnaround was possible.”

Jonathan Huberman, CEO and Co-Founder, MD Clearance
